

Raja Rogers Meeting Notes  
October 24, 2006

Jeff Murphy	<p>We have 110 people signed up for the CBE tour. Need to find a new room as our room is too small for that many people. There's no room for expansion in the room at Embassy Suites.</p> <p>Each admin, teacher needs ELA credit. We got approved for 2 hours of ELA credit. We haven't even announced that yet.</p> <p>We are counting on some people not showing up. We are also telling people who call now that you can come at 12:30pm after lunch. Tues, Oct 31 is the event.</p>
Raja Rogers	Can they tear down tables and put chairs up instead? You could reserve the restaurant for overflow.
Ray	We're up to 65 attendees. Thurs, Nov 2 is the event.
Raja Rogers	<p>Report from MVC and MUM: The first 121 pundits are arriving Thurs. Rudravaishek, the main yagya they do, is set up in numbers of 11. 11 is Shiva's number. You can have 11, 22, 33, etc. all the way up to 121 which is 11 squared. Each add'l 11 pundits brings new benefits as described in the Vedas. 121 is very very powerful Rudravaishek.</p> <p>First 121 pundits are arriving Thurs evening. They will be en route on Wed. Will be driven from Chicago to MUM. I'm warning everyone at the Raj to fasten their seatbelts because we are going to have quite a take-off. The rest should be here by the end of the weekend.</p> <p>They will stay in the 5 frats that we have moved people out of. The frats will hold the entire 350, including their cooks. They will be sequestered. Maharishi doesn't want a lot of contact with Westerners. They'll have organic food and milk from our farms. They will do the yagyas in the frats.</p>
Dori	Can people still go through the clinic at the Raj?
Raja Rogers	<p>Yes.</p> <p>Pundit housing is still being built just north of the Mother Divine campus. If anyone cares to donate for infrastructure for the pundit campus, that would be great. Need 4-5 million dollars. Dr. Howard Settle is giving support for their monthly needs.</p> <p>Still encourage people to come to FF, but housing may be tight on campus.</p>
Stuart	When will they start their first Rudravaishek?
Raja Rogers	Soon. The morning after they arrive or shortly thereafter. They are used to doing this every day.
Steve	The opportunity to support this financially is absolutely irresistible. It will be an incredible leap forward for the nation.
Raja Rogers	There was an amazing article in the Des Moines Register giving us credit for settling Lebanon/Israel conflict and raising the stock market. The writer points out that when Marconi invented the radio and discovered radio waves, no one believed him.
Charlie	126 new participants on CIC course start next week.

Jane	A lady in Vero Beach mentioned that she went for an initial eval at the clinic in Palm Beach. Then she was going to come back for a scheduled follow-up and found it was closed. No explanation given. Can we do anything to remedy this? She's a meditator who comes to Center events.
Raja Rogers	That's ancient. It's just one of those things that happen.
Stuart	I had some meetings with the CEO of the Foundation for the Advancement of Cardiac Therapy. She was very enthusiastic and invited me to do a series of presentations on TM. They will advertise for us. She left me a message this morning that Readers Digest is doing an article on prevention of colds and flu and she wanted them to interview me on TM. So this is a nice signal of things bubbling up.
Steve	In Atlanta, a reporter from the Atlanta Journal Constitution wanted to interview us about TM for an article on meditation in general. Photographer is coming tomorrow morning.
Raja Rogers	This is what I am hearing from every quarter. This is going to accelerate.
Ray	Finishing CIC this week – 6 new CP's. Plus 2 MVVT's.
Raja Rogers	Raja Wynne was talking with Maharishi – “We are moving against the collective destiny of the entire nation” so we expect some resistance (second part of that sentence is a paraphrase). He also said that we expect to prevail. It seems like something big is up. The Inv America course is also about bringing people to higher states of consciousness.
